

# *The British Amateur Radio Teledata Group*

## **BARTG LOOKS TO THE FUTURE**

BARTG is a not-for-profit group that promotes all forms of datacoms within amateur radio. It does this in many ways including two very popular annual contests, an awards scheme and its web site. BARTG has a world-wide membership.

**BARTG has quietly undergone some changes during the past year.**

### **BARTG HAS A NEW WEB SITE – [www.bartg.org.uk](http://www.bartg.org.uk)**

This new web site has been set up to enable BARTG to offer some extra facilities.

The original web site at [www.bartg.demon.co.uk](http://www.bartg.demon.co.uk) is still online but BARTG cannot guarantee its availability. BARTG recommends that visitors always go to [www.bartg.org.uk](http://www.bartg.org.uk) and no other BARTG web site. BARTG's email addresses are unchanged.

### **NEW LOOK FOR BARTG'S MAGAZINE "DATACOM"**

"Datacom", BARTG's well-known magazine, has moved onto BARTG's new web site so that news can reach BARTG's members as quickly as possible. This also eliminates the labour of packing and posting each issue.

### **MEMBERS AND FRIENDS**

BARTG is still enhancing its **Members** and **Friends** scheme. Latest details can be obtained at [www.bartg.org.uk](http://www.bartg.org.uk)

### **CONTESTS AND AWARDS**

BARTG's very popular and successful **contests** continue unchanged. The **awards** scheme is growing in popularity and new awards will be added from time to time. Visit [www.bartg.org.uk](http://www.bartg.org.uk) for full details of both contests and awards.

### **REMEMBER – for information about BARTG, go to [www.bartg.org.uk](http://www.bartg.org.uk)**
